School of Cognitive Sciences (SCS)  
Institute for Research in Fundamental Sciences (IPM)

## Neuroscience Postdoc Positions

Laboratory of 'Neural Circuit and Behavior' (NCB), at the School of Cognitive Sciences (SCS), Institute for Research in Fundamental Sciences (IPM), Tehran, has opening for postdoc positions.

### Potential projects are:

1. Role of different neurotransmitter systems on EEG signatures of predictive coding in non-human primates.
2. Neural correlates (spike and LFP) of predictive coding in non-human primates.

Postdoc position at SCS is for three years, at the most, and subject to a yearly evaluation by an internal board. Extension of the contract is dependent on satisfactory progress. These positions are funded for one year. Funding for the following two years has to be secured through external funding agencies like CogC or INSF.

### Eligibility to apply:

Have, or be at the final staging of having, a PhD in Neuroscience or related fields.

Have at least one first-author paper related to Neuroscience from the PhD project.

### To apply:

send your CV, published or under review papers, and PhD thesis to: [ncbATipm@gmail.com](mailto:ncbATipm@gmail.com). Also, arrange for at least two recommendation letters to be sent to the same email address.

Short-listed candidates will be invited to give a talk about their research at SCS as part of the interview.

The position is open till suitable candidates are found.
