

RA positions, data analysis

Sanayei lab of Neural Circuit and Behavior (NCB) at **School of Cognitive Sciences, IPM**, Tehran, is looking for **research assistants** for neural data analysis projects. Datasets are from rodents and non-human primates (spikes and/or LFP) in passive or behaving animals.

People can apply by sending their CV and a cover letter (including questions they are interested in) to: **mehdi.sanayei@gmail.com**

You are expected to:

- Be fluent in python and/or Matlab
- Be familiar with neural data analysis
- Have attended Neuromatch Academy course (comp neuro) and/or IPM Neural Data Analysis workshop
- Be able to work within deadlines

Positions are open till suitable candidates can be recruited.
